

EAGLE OCEAN MARINE CIRCULAR

MARCH 29, 2021

TO ALL INSUREDS AND BROKERS

Dear Colleagues:

PEOPLE'S REPUBLIC OF CHINA (PRC): PROHIBITION OF THE CARRIAGE OF HIGHLY TOXIC CHEMICALS IN THE PRC'S YANGTZE RIVER BASIN

As of March 1, 2021, the PRC's Yangtze River Protection Law prohibits the transportation of acutely toxic chemicals and other dangerous substances by ship in the Yangtze River Basin. The Yangtze River Basin includes the ports of Changshu, Jiangyin, Jingjiang, Ma An Shan, Nanjing, Nantong, Shanghai, Tiancang, Taizhou, Wuhan, Yibin Zhangjiagang, Zhengjiang.

The chemicals that are prohibited for transport are listed in:

- the [Catalogue of Hazardous Chemicals \(2015\)](#); and
- the [Catalogue of Prohibited Dangerous Chemicals by Inland River \(2019 edition\)](#).

Although the attached Catalogues are in Mandarin, the targeted chemicals can be investigated by their unique Chemical Abstract Service (CAS) Registry Number.

Insureds may face significant fines or other penalties, such as the revocation of their business license, if these requirements are violated. Insureds should ensure that they perform an appropriate level of due diligence to avoid the carriage of such cargoes. In addition, Insureds should consider any relevant clauses in their charter parties for carrying any chemicals through the Yangtze River Basin region.

EOM recommends that Insureds take note of this information and be guided accordingly. It also wishes to thank the American Club's correspondents, Huatai Insurance Agency & Consulting Services, Ltd., for their assistance in providing the information contained above as further detailed in their circular found [here](#).

Yours faithfully,

Joseph E.M. Hughes, Chairman & CEO
Eagle Ocean Agencies, Inc.

Eagle Ocean Marine is an American Club fixed premium facility offering gold standard International Group club service, underpinned by the impeccable security of reinsurance at Lloyd's.
